INDEPENDENT AUDITOR'S REPORT

To the President and Members
of the Board of Education of the
Cohoes City School District

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities and each major fund of the Cohoes City School District (the District) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Cohoes City School District as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to the financial audits contained in *Government Auditing Standards*, issues by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events considered in the aggregate, that raise substantial doubt about the Cohoes City School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

WE VALUE YOUR FUTURE

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Cohoes City School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Cohoes City School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 – 15, budgetary comparison information on pages 56 and 57, schedule of changes in total OPEB liability on page 58, schedules of proportionate share of net pension liability (asset) on page 59 and schedules of District contributions on page 60 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Cohoes City School District's basic financial statements. The supplementary information on pages 61 – 63 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule for expenditures of federal awards on pages 69 is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not required part of the basic financial statements. The supplementary information and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 30, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Cohoes City School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) FOR THE FISCAL YEAR ENDED JUNE 30, 2023

The following is a discussion and analysis of the School District's financial performance for the fiscal year ended June 30, 2023. The section is a summary of the School District's financial activities based on currently known facts, decisions, or conditions. It is also based on both the government-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the District's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

- The District experienced an increase of \$342,084 in total net position during the year. This is a result of an increase in State & Federal Aid.
- GASB 75 requires that a long-term liability be accrued for other post-employment benefits. The amount of this accrual for the year ended June 30, 2023 is \$102,314,249, a decrease of \$10,189,518 from the prior year due to changes in assumptions, actual experience and discount rate.
- In May 2022, the voters approved a Capital Project referendum for \$19,985,700, with \$2,000,000 funded from the capital reserve fund.
- Capital Fund expenses totaled \$1,302,089 for the year ended June 30, 2023.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: Management's Discussion and Analysis (MD&A) (this section), the basic financial statements, and the required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *District-wide* financial statements that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the District-wide statements. The fund financial statements concentrate on the District's most significant funds with all major funds listed in separate columns.
- The *governmental funds statements* tell how basic services, such as regular and special education, were financed in the *short-term*, as well as what remains for future spending.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

- *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a *trustee* or *agent* for the benefit of others.

The financial statements also include notes that provide additional information about the financial statements and the balances reported.

The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

Table A-1 shows how the various sections of this annual report are arranged and related to one another.

Table A-1 Organization of the District's Annual Financial Report

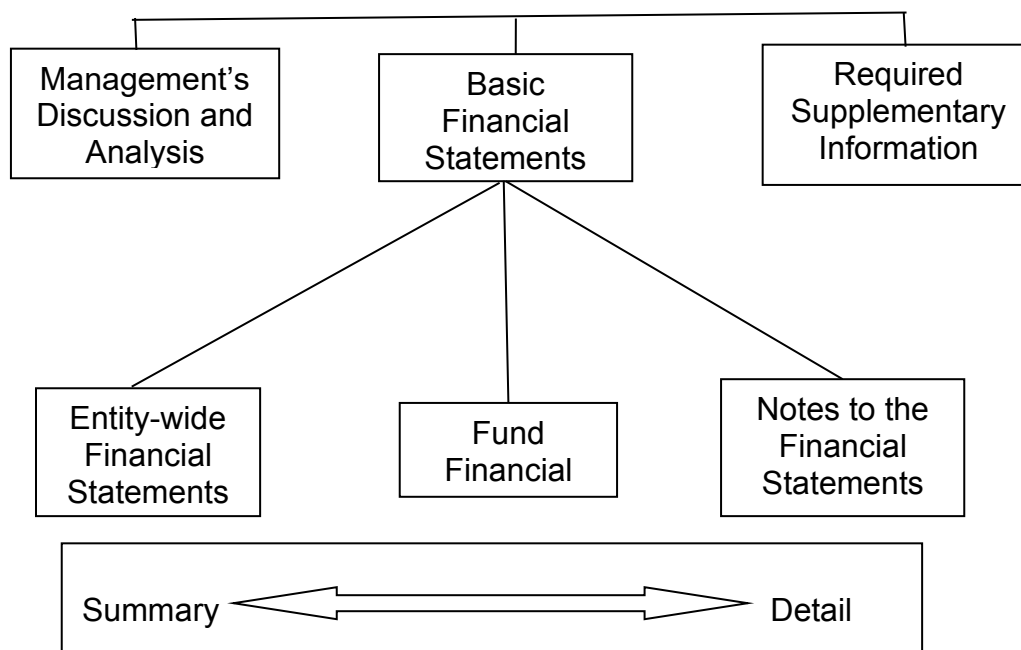

Table A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities that they cover and the types of information that they contain. The remainder of this overview section highlights the structure and contents of each statement.

Revenue for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable.	All additions and deductions during the year, regardless of when cash is received or paid.

District-Wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District’s assets and liabilities. All of the current year’s revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District’s *net position* and how they have changed. Net position – the difference between the District’s assets and liabilities – is one way to measure the District’s financial health or position.

- Over time, increases or decreases in the District’s net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- For assessment of the overall health of the District, additional nonfinancial factors such as changes in the property tax bases and the condition of buildings and other facilities should be considered.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) FOR THE FISCAL YEAR ENDED JUNE 30, 2023

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

District-Wide Statements (Continued)

Net position of the governmental activities differ from governmental fund balance because governmental fund level statements only report transactions using or providing current financial resources. Also, capital assets are reported as expenditures when financial resources, (dollars), are expended to purchase or build such assets. Likewise, the financial resources that may have been borrowed are considered revenue when they are received. Principal and interest payments are considered expenditures when paid. Depreciation is not calculated.

Capital assets and long-term debt are accounted for in account groups and do not affect the fund balance.

District-wide statements use an economic resources measurement focus and full accrual basis of accounting that involves the following steps to prepare the statement of net position:

- Capitalize current outlays for capital assets.
- Report long-term debt as a liability.
- Depreciate capital assets and allocate the depreciation to the proper function.
- Calculate revenue and expenditures using the economic resources measurement focus and the full accrual basis of accounting.
- Allocate net position as follows:
 - Investment in capital assets, net of related debt.
 - Restricted net position has constraints placed on use by external sources or imposed by law.
 - Unrestricted net position is net position that does not meet any of the above restrictions.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. The funds have been established by the State of New York.

The District has two kinds of funds:

- **Governmental Funds:** Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them. The governmental fund statements focus primarily on current financial resources and often have a budgetary orientation. Governmental funds include the general fund, special aid fund, school lunch fund, capital projects fund, and the debt service fund. Required financial statements are the balance sheet and the statement of revenue, expenditures, and changes in fund equity.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Fund Financial Statements (Continued)

- **Fiduciary Funds:** The District is the trustee, or fiduciary, for assets that belong to others. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations. Fiduciary fund reporting focuses on net position and changes in net position.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District's net position as of June 30, 2023, are as detailed in Tables A-3 and A-4.

Total Net Position	\$ (54,253,947)	\$ (54,596,031)	(1)

During 2023, the District's assets and deferred outflows decreased by \$21,060,046 (See Table A-3) primarily as a result of the change in OPEB and pension resources.

Deferred inflows of resources relate primarily to OPEB and pensions.

The decrease in liabilities can be attributed primarily to the decrease in OPEB Payable and debt payments.

Changes in Net position

The District's fiscal year 2023 revenue totaled \$55,744,678 (See Table A-4). Property taxes and New York State aid accounted for the majority of revenue (see Table A-5). The remainder of revenue came from fees for services, use of money and property, operating grants, and other miscellaneous sources.

The total cost of all programs and services totaled \$55,402,594 for 2023. These expenses are predominately for the education, supervision, and transportation of students (see Table A-6). The District's administrative and business activities accounted for 2% of total costs.

Net position increased during the year by \$342,084.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (Continued)

The increase in instructional expenses is attributed to the continuation of program enhancements and enrichment made to bridge the learning gap students experienced during the pandemic period and to benefit at risk student populations. Transportation expenses are consistent with the previous years primarily due to the demand in the following areas: Special programs, English Language Learners (ELL), Homeless, Athletics and Educational Field Trips.

Governmental Activities

Revenue for the District's governmental activities totaled \$55,744,678 while total expenses were \$55,402,594. Accordingly, net position increased by \$342,084.

Table A-7 presents the cost of several of the District's major activities. The table also shows each activity's net cost (total cost less fees generated by the activity and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the District's taxpayers by each of these functions.

Decrease in net position	<u>\$55,402,594</u>	<u>\$47,584,372</u>	<u>\$51,773,052</u>	<u>\$44,563,001</u>

- The cost of all governmental activities for the year was \$47,584,372.
- The users of the District's programs financed \$19,902 of the costs.
- The federal and state government financed \$7,653,320 of the costs.
- Most of the District's net costs of \$47,926,456 were financed by taxpayers and state and federal aid.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

Variances between years for the governmental fund financial statements are not the same as variances between years for the District-wide financial statements. The District's governmental funds are presented on the current financial resources measurement focus and the modified accrual basis of accounting. Under this method of presentation, governmental funds do not include long-term liabilities for the funds' projects and capital assets purchased by the funds. Governmental funds will include proceeds from the issuance of debt, the current payments for capital assets, and the current payments for debt.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) FOR THE FISCAL YEAR ENDED JUNE 30, 2023

FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstances that could significantly affect its financial health in the future:

Federal stimulus relief funds for American Rescue Plan (ARP) used to help mitigate the economic harm endured from the COVID-19 pandemic must be expended by September, 2024.

In May 2023, the 2023-2024 budget proposal of \$52,340,637 was approved, applying no appropriated use of fund balance or reserves. The \$5,340,112 increase was mainly supported by the State's increased allocation of Foundation Aid to the district.

In May of 2022, the voters approved a Capital Project referendum for \$19,985,700, with \$2,000,000 funded from the capital reserve fund. Phase 1 of the project kicked off in the summer of 2023 with Phase 2 expected to run from 2023 through 2025.

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The following are the amounts by which capital outlays and additions of assets in excess depreciation in the current period:

Capital Outlay	\$ 1,769,045

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term obligations in the Statement of Net Position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term obligations in the Statement of Net Position. The following details these items as they effect the governmental activities:

Debt Repayments	\$ 3,305,000	
		3,305,000

In the Statement of Activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. 16,922

Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds. (154,771)

The net OPEB liability does not require the use of current financial resources and, therefore, is not reported as an expenditure in the governmental funds. (4,653,826)

COHOES CENTRAL SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Cohoes City School District ("the District") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) for governments as prescribed by the Governmental Accounting Standards Board (GASB) which is the standards-setting body for establishing governmental accounting and financial reporting principles.

A. Reporting Entity

The Cohoes City School District is governed by the laws of New York State. The District is an independent entity governed by an elected Board of Education consisting of 7 members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The reporting entity of the District is based upon criteria set forth by GASB Statement 14, *The Financial Reporting Entity*, as amended by GASB Statement 39, *Component Units*. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District and its component unit. The District is not a component unit of another reporting entity.

The decision to include a potential component unit in the District's reporting entity is based on several criteria, including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief review of an entity included in the District's reporting entity within its Fiduciary funds.

The Extraclassroom Activity Funds

The extraclassroom activity funds of the District represents funds of the students of the District. The Board of Education exercises general oversight of these funds. The extraclassroom activity funds are independent of the District with respect to its financial transactions, and the designation of student management. However, due to the administrative involvement defined in footnote 1 to paragraph 8b of GASB 84, the District accounts for these student organization funds within the General Fund. Separate audited financial statements (cash basis) of the extraclassroom activity funds can be found at the District's business office, located at 21 Page Avenue, Cohoes, New York.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

B. Joint Venture

The Cohoes City School District is a component district in the Capital Region Board of Cooperative Educational Services (BOCES). A BOCES is a voluntary, cooperative association of school districts in a geographic area that share planning, services, and programs which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under Section 1950 of the Education Law. A BOCES Board is considered a corporate body. All BOCES property is held by the BOCES Board as a corporation (Section 1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under Section 119-n(4)(b)(7) of the General Municipal Law. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of Section 1950 of the Education Law.

A BOCES' budget is comprised of separate budgets for administrative, programs, and capital costs. Each component school district's share of administrative and capital cost is determined by resident public school district enrollment as defined in Education Law, Section 1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate.

During the year ended June 30, 2023, the Cohoes City School District was billed \$4,748,292 for BOCES administrative and program costs. The District's share of BOCES Aid amounted to \$1,609,907. Financial statements for the BOCES are available from the BOCES administrative office.

C. Basis of Presentation

District-wide Statements

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, State aid, intergovernmental revenues, and other exchange and nonexchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to the particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

C. Basis of Presentation

Fund Financial Statements

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

I. Governmental Funds

The District reports the following major governmental funds:

General Fund

This is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

Special Revenue Funds

The special revenue funds are used to account for the proceeds of special revenue sources that are legally restricted to expenditure for specified purposes. Special revenue funds include the following funds:

a. Special Aid Fund

These funds account for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for specified purposes and other activities whose funds are restricted as to use. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties.

b. School Lunch Fund

The school lunch fund is used to account for child nutrition activities whose funds are restricted as to use.

Capital Projects Fund

The Capital Projects Fund is used to account for and report financial resources to be used for the acquisition, construction or renovation of major capital facilities and equipment.

Debt Service Fund

This fund accounts for the accumulation of resources and the payment of principal and interest on long-term general obligation debt of governmental activities. When a capital asset is sold and all or a portion of the bonds used to finance the capital asset are outstanding, this fund must be used to account for the proceeds from the sale of capital assets up to the balance of related bonds outstanding.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

C. Basis of Presentation

II. Fiduciary Funds

This fund is used to account for fiduciary activities. Fiduciary activities are those in which the District acts as trustee and agent for resources that belong to others. These activities are not included in the District-wide financial statements, because their resources do not belong to the District, and are not available to be used.

There are two classes of fiduciary funds:

a. Private Purpose Trust Funds

These funds are used to account for trust arrangements in which principal and income benefits individuals, private organizations or other governments. A scholarship is an example of a Private Purpose Trust Fund. Established criteria govern the use of the funds and members of the District or representatives of the donors may serve on committees to determine who benefits.

b. Custodial Funds

These funds are strictly custodial in nature and do not involve the measurement of results of operations. There are no activities that meet this criteria.

D. Basis of Accounting/Measurement Focus

General Information

Accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The District-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within ninety days after the end of the fiscal year, except for real property taxes, which are considered to be available if collected within sixty days of the fiscal year end.

**COHOES CENTRAL SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

D. Basis of Accounting/Measurement Focus

General Information

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, other post employment benefits, pension, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

E. Refundable Advances

Refundable advances arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both recognition criteria are met, or when the District has legal claim to the resources, the liability for refundable advances is removed and revenue is recognized.

F. Property Taxes

I. Calendar

Real property taxes are levied annually by the Board of Education no later than September 1, and became a lien on July 1, 2022. Taxes were collected in two installments commencing during the period September 1, 2022 to March 31, 2023.

II. Enforcement

Uncollected real property taxes are subsequently enforced by the City of Cohoes, in which the District is located. An amount representing uncollected real property taxes is transmitted by the City to the District within two years from the return of unpaid taxes to the City. Real property taxes receivable expected to be collected within sixty days subsequent to June 30, 2023, less similar amounts collected during this period in the preceding year, are recognized as revenue; otherwise taxes receivable are offset by deferred inflows of resources.

G. Restricted Resources

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these Notes.

H. Budgetary Procedures and Budgetary Accounting

I. Budget Policies

The budget policies are as follows:

- a. The District administration prepares a proposed budget for approval by the Board of Education for the General Fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

H. Budgetary Procedures and Budgetary Accounting

I. Budget Policies

- b. The proposed appropriation budget for the General Fund is approved by the voters within the District.
- c. Appropriations are adopted at the line item level.
- d. Appropriations established by adoption of the budget constitute a limitation on expenditures (and encumbrances) which may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year are increased by the planned use of specific reserves, and budget amendments approved by the Board of Education as a result of selected new revenue sources not located in the original budget (when permitted by law). These supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need which exists which was not determined at the time the budget was adopted. The following supplemental appropriations occurred during year ended June 30, 2023.

From Appropriate Reserves:

Capital Reserve	\$ 2,000,000
-----------------	--------------

- e. Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.
- f. Budgets are established and used for individual capital project fund expenditures as approved by a special referendum of the District's voters. The maximum project amount authorized is based primarily upon the cost of the project plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

II. Encumbrances

Encumbrance accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts, and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year-end are presented as restrictions or assignments of fund balance and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred, or the commitment is paid.

III. Budget Basis of Accounting

Under GASB Statement No. 34, budgetary comparison information is required to be presented for the general fund and each major special revenue fund with a legally adopted budget. The District is not legally required to adopt a budget for its special revenue funds. Therefore, budget comparison information for special revenue funds is not included in the District's financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

I. Cash and Investments

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The District investment policies are governed by State statutes. District monies must be deposited in FDIC-insured commercial banks or trust companies located within the State. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, and obligations of New York State or its localities.

Collateral is required for demand and time deposits and certificates of deposit not covered by Federal Deposit Insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and School Districts. Investments, if any, are stated at fair value.

J. Accounts Receivable

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

K. Inventories and Prepaid Items

Inventories of food and supplies in the school lunch fund are recorded at cost on a first-in, first-out basis or, in the case of surplus food, at stated value which approximates market. Purchases of inventorable items in other funds are recorded as expenditures at the time of purchase.

Prepaid items represent payments made by the District for which benefits extend beyond year-end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the District-wide and fund financial statements. These items are reported as assets on the statement of net position or balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed.

A portion of the fund balance in the amount of these non-liquid assets has been identified as not available for other subsequent expenditures.

L. Interfund Transfers

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid with one year. Permanent transfers of funds include the transfer of expenditure and revenues to provide financing or other services.

**COHOES CENTRAL SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

L. Interfund Transfers

In the District-wide statements, the amounts reported on the Statement of Net Position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between the funds, with the exception of those due from or to the fiduciary funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

Refer to Note 2.A.III. for a detailed disclosure by individual fund for interfund receivables, payables, expenditures and revenues activity.

M. Equity Classifications

District-wide statements:

In the District-wide statements there are three classes of net position:

Net investment in capital assets - consists of net capital assets (cost less accumulated depreciation) plus deferred loss on bond issuance and unspent bond proceeds reduced by outstanding balances of related debt obligations from the acquisition, constructions or improvements of those assets and unamortized bond premium.

Restricted - reports net position when constraints placed on the assets or deferred outflows are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted - reports the balance of net position that do not meet the definition of the above two classifications and are deemed to be available for general use by the District.

Fund statements:

In the fund basis statements there are five classifications of fund balance:

Non-spendable - Includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Non-spendable fund balance includes the following:

	<u>Total</u>
Inventory in School Lunch	\$ 15,434
Total Nonspendable Fund Balance	<u><u>\$ 15,434</u></u>

M. Equity Classifications

Restricted - Includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors or laws or regulations of all other governments; or imposed by law through constitutional provisions or enabling legislation. All encumbrances of funds other than the General Fund are classified as restricted fund equity. The District has established the following restricted fund balances:

Fund statements:

Reserve for Debt

This reserve was established according to General Municipal Law §6-l, and for the purpose of retiring the outstanding obligations upon the sale of District property or capital improvement that was financed by obligations that remain outstanding at the time of sale. The funding of the reserve is from unexpended bond proceeds.

Employee Benefit Accrued Liability

According to General Municipal Law §6-p, this reserve must be used for the payment of accrued employee benefits due to an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated.

Capital Reserve

According to Education Law §3651, this reserve must be used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve, the ultimate amount, its probable term and the source of the funds. Expenditure may be made from the reserve only for a specific purpose further authorized by the voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law.

Workers' Compensation

According to General Municipal Law §6-j, these reserve funds must be used to pay compensation and benefits, medical, hospital, or other expenses authorized by Article 2 of the Workers' Compensation Law and to pay the expenses of administering a self-insurance workers' compensation program. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal years' budget.

Retirement System Contributions

According to General Municipal Law Section 6-r, these reserve funds must be used for financing retirement contributions including employee and teacher retirement. The reserve must be accounted for separate and apart from all other funds and a detailed report of the operation and condition of the fund must be provided to the Board. A Board may adopt a resolution establishing a sub-fund for contributions to the New York State Teachers' Retirement System (TRS). During a fiscal year, the Board may authorize payment into the sub-fund of up to 2% of the total covered salaries paid during the

preceding fiscal year, with the total amount funded not to exceed 10% of the total covered salaries during the preceding fiscal year.

Tax Certiorari

According to Education Law §3651.1-a, this reserve must be used to establish a reserve fund for tax certiorari and to expend from the fund without voter approval. The monies held in the reserve shall not exceed the amount that might reasonably be deemed necessary to meet anticipated judgments and claims arising out of tax certiorari proceedings. Any resources deposited to the reserve which are not expended for tax certiorari proceedings in the year such monies are deposited must be returned to the General Fund on or before the first day of the fourth fiscal year after deposit of these monies.

Unemployment

According to General Municipal Law §6-m, this reserve must be used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund.

Restricted fund equity includes the following:

Fund statements:

Committed - Includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the school districts highest level of decision-making authority, i.e., the Board of Education. The District has no committed fund balances as of June 30, 2023.

Assigned - Includes amounts that are constrained by the District's intent to be used for specific purposes but are neither restricted nor committed. The purpose of the constraint must be narrower than the purpose of the General Fund, and in funds other than the General Fund, assigned fund balance represents the residual amount of fund balance. Assigned fund balance also includes an amount appropriated to partially fund the subsequent year's budget, as well as encumbrances not classified as restricted at the end of the fiscal year. All encumbrances of the General Fund are classified as Assigned Fund Balance. Appropriated fund balance includes the following:

	<u>Total</u>
General Fund - Encumbrances	\$ 186,742
General Fund - Appropriated for Taxes	-
School Lunch Fund - Year End Equity	568,274
Total Assigned Fund Balance	<u><u>\$ 755,016</u></u>

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments of expenditures are recorded for budgetary control purposes in order to reserve applicable appropriations, is employed as a control in preventing over-expenditure of established appropriations.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

M. Equity Classifications

Fund statements:

Unassigned - Includes all other General Fund amounts that do not meet the definition of the above four classifications and are deemed to be available for general use by the District. Deficit fund balances in governmental funds are classified as unassigned. In funds other than the General Fund, the unassigned classification is used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted or assigned.

NYS Real Property Tax Law Section 1318 limits the amount of unexpended surplus funds a District can retain to no more than 4% of the District's budget for the General Fund for the ensuing fiscal year. Nonspendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances are also excluded from the 4% limitation. The District exceeded the 4% limit at June 30, 2023.

Net Position/Fund Balance

Net Position Flow Assumption: Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the District-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

Fund Balance Flow Assumption: Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied.

Order of Use of Fund Balance

The District's policy is to apply expenditures against nonspendable fund balance, restricted fund balance (to the extent appropriated), committed fund balance, assigned fund balance and unassigned fund balance at the end of the fiscal year. For all funds, nonspendable fund balances are determined first and then restricted fund balances for specific purposes are determined. Any remaining fund balance amounts for funds other than the General Fund are classified as either assigned or restricted fund balance. In the General Fund, committed fund balance is determined next then assigned. The remaining amounts are reported as unassigned.

N. Post Employment Benefits

In addition to providing the retirement benefits described in Note 2.B.I, the District provides post employment health insurance coverage to its retired employees and their survivors in accordance with the provisions of the employment contract negotiated between the District and its employee groups as governed by Board of Education Policy. Substantially all of these employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post employment benefits is shared between the District and the retired employee. See Note 4.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

O. Capital and Lease Assets

Capital assets are reported at historical cost or estimated historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Donated assets are reported at estimated fair market value at the time received.

Land and construction in process are not depreciated. Capitalization thresholds (the dollar above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the District-wide statements are as follows:

<u>Class</u>	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Buildings	\$ 500	SL	40 Years
Buildings improvements	\$ 500	SL	40 Years
Site improvements	\$ 500	SL	40 Years
Furniture and equipment	\$ 500	SL	5-7 Years

Lease Assets

The District-wide financial statements, lease assets are reported within the major class of the underlying asset and valued at the future minimum lease payment. Amortization is over 5 years based on the contract terms and/or estimated replacement of assets.

P. Deferred Outflows and Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has four items that qualify for reporting in this category. First is the deferred loss on refunding reported in the Statement of Net Position. A deferred loss on refunding results from the difference in carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or refunding debt. The second item is related to pensions reported in the Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension asset or liability, changes in assumptions and difference during the measurement period between the District's contributions and its proportionate share of total contributions to the pension systems not included in pension expense. The third item is the District contributions to the pension systems (TRS and ERS systems) and OPEB subsequent to the measurement date. The fourth item relates to the OPEB reporting in the District-wide Statement of Net Position. This represents the effect of the net change in the actual and expected experience and changes in assumptions.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category. The first item is related to pensions reported in the

COHOES CENTRAL SCHOOL DISTRICT

P. Deferred Outflows and Inflows of Resources

District-wide Statement of Net Position. This represents the effect of the net change in the District's proportionate share of the collective net pension liability (TRS and ERS System) and difference during the measurement periods between the District's contributions and its proportionate share of total contributions to the pension systems not included in pension expense. The second item is related to the OPEB report in the District-wide Statement of Net Position. This represents the effect of the net changes of assumptions or other inputs.

In the Balance Sheet-Governmental Funds deferred inflow of resources arises when a potential revenue does not meet both the measurable and available criteria for recognition in the current period.

Q. Short-term Debt

The District may issue Revenue Anticipation Notes (RAN) and Tax Anticipation Notes (TAN), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs and TANs represent a liability that will be extinguished by the use of expendable, available resources of the fund.

The District may issue budget notes up to an amount not to exceed 5% of the amount of the annual budget during any fiscal year for expenditures for which there is an insufficient or no provision made in the annual budget. The budget note must be repaid no later than the close of the second fiscal year succeeding the year in which the note was issued.

The District may issue Bond Anticipation Notes (BAN), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BANs issued for capital purposes be converted to long-term financing within five years after the original issue date.

R. Payables, Accrued Liabilities and Long-term Obligations

Payables, accrued liabilities and long-term obligations are reported in the District-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, other post employment benefits payable, compensated absences and pension costs that will be paid from governmental funds, are reported as a liability in the funds financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

**COHOES CENTRAL SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

S. Explanation of Certain Differences Between Governmental Fund Statements and District-wide Statements

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the District-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the Statement of Activities, compared with the current financial resources focus of the governmental funds.

Capital Related Differences

Capital related differences include the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and an asset on the Statement of Net Position and depreciation expense on those items as recorded in the Statement of Activities.

Long-Term Debt Transaction Differences

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas principal payments are recorded as a reduction of liabilities in the Statement of Net Position.

Pension Differences

Pension differences occur as a result of changes in the District's proportion of the collective net pension asset/liability and differences between the District's contributions and its proportionate share of the total contributions to the pension systems.

OPEB Differences

OPEB differences occur as a result of changes in the District's total OPEB liability and differences between the District's contributions and OPEB expense.

T. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenue and expenditures during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of compensated absences, other post employment benefits, potential contingent liabilities, net pension asset/liability, deferred outflows/inflows and the lives of long-term assets.

**COHOES CENTRAL SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

U. Vested Benefits

District employees are granted vacation in varying amounts, based principally on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, resignation, or death employees may receive a payment based on unused accumulated sick leave, based on contractual provisions. Unused sick leave for teachers is converted to a dollar amount and can be applied to their share of the premium of health insurance plan at retirement.

Consistent with GASB Statement 16, *Accounting for Compensated Absences*, an accrual for accumulated sick leave is included in the compensated absences liability at year-end. The compensated absences liability is calculated based on the applicable contract rates in effect at year-end.

In the fund statements only the amount of matured liabilities is accrued within the General Fund based upon expendable and available financial resources. These amounts are expensed on a pay-as-you-go basis.

V. Implementation of New Accounting Standards

The District has adopted all current Statements of the Governmental Accounting Standards Board (GASB) that are applicable. At June 30, 2023, the District implemented the following new standards issued by GASB.

GASB has issued Statement 91, *Conduit Debt Obligations*, effective for the year ending June 30, 2023.

GASB has issued Statement 94, *Public-Private and Public-Public Partnerships*, effective for the year ending June 30, 2023.

GASB has issued Statement 99, *Omnibus 2022*, effective for the year ending June 30, 2023.

W. Future Changes in Accounting Standards

The District will evaluate the impact each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

GASB has issued Statement 100, *Accounting Changes and Error Corrections*, effective for the year ending June 30, 2024.

GASB has issued Statement 101, *Compensated Absences*, effective for the year ending June 30, 2025.

III. Interfund Receivables and Payables

Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. The balances result from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made.

Interfund receivable and payable balances at June 30, 2023 are as follows:

	Interfund

Total	\$ 6,107,544	\$ 6,107,544	\$ 2,207,911	\$ 2,207,911

The General Fund transfer to the Special Aid Fund is for the District's share of special education summer school programs its students attended. The General Fund transfer to the Capital Projects Fund is to fund local share of projects from the capital reserve.

General Information

The District participates in the New York State and Local Employees' Retirement System (ERS) and the New York State Teachers' Retirement System (TRS). Collectively, TRS and ERS are referred to herein as the "Systems". These are cost-sharing multiple employer, public employee retirement systems. The Systems offer a wide range of plans and benefits which are related to years of service and final average salary, vesting of retirement benefits, death and disability.

Plan Descriptions

Teachers' Retirement System

The TRS is administered by the New York State Teachers' Retirement Board. This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. The System is governed by a 10 member Board of Trustees. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors and administrators employed in the New York Public Schools and BOCES who elected to participate in TRS. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The New York State TRS issues a publicly available financial report that contains financial statements and required supplementary information for the System. The report and additional information may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395 or by referring to the NYS/TRS Comprehensive Annual Financial report which can be found on the System's website at www.nystrs.org.

Employees' Retirement System

The New York State and Local Employees' Retirement System provides retirement benefits as well as death and disability benefits. This is a cost-sharing multiple-employer retirement system. The net position of the System is held in the New York State Common Retirement Fund (The Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. Obligations of employers and employees to contribute and benefits to employees are governed by the New York State

Retirement and Social Security Law (NYSRSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. The System issues a publicly available financial report that includes financial statements and required supplementary information. That report and additional information may be obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12208 or found at www.osc.state.ny.us/retire/publications/index.php.

Contributions

The Systems are noncontributory except for employees who joined after July 27, 1976, who contribute 3% of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 who generally contribute 3% to 3.5% of their salary for the entire length of service. In addition, employee contribution rates under ERS tier VI vary based on a sliding salary scale. For ERS, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31. Pursuant to Article 11 of the Education Law, the New York State Teachers' Retirement Board establishes rates annually for TRS.

The District is required to contribute at an actuarially determined rate. The required contributions for the current year and two preceding years were:

<u>Contributions</u>		<u>ERS</u>		<u>TRS</u>
2023	\$	391,155	\$	1,694,682
2022		461,250		1,408,615
2021		484,840		1,369,537

The District contributions made to the Systems were equal to 100 percent of the contributions required for each year.

Pension Liabilities

At June 30, 2023, the District reported the following asset/(liability) for its proportionate share of the net pension asset/(liability) for each of the Systems. The net pension asset/(liability) was measured as of March 31, 2023 for ERS and June 30, 2022 for TRS. The total net pension asset/(liability) used to calculate the net pension asset/(liability)

was determined by an actuarial valuation as of that date. The District's proportion of the net pension asset/(liability) was based on a projection of the District's long-term share of contributions of all participating members, actuarially determined. This information was provided by the ERS and TRS systems in reports provided to the District.

Deferred Outflows and Inflows of Resources Related to Pensions

The District's contributions subsequent to the measurement date will be recognized as a reduction of the net pension asset/(liability) in the year ended March 31, 2024 for ERS and June 30, 2023 for TRS. Other amounts reported as deferred outflows of resources, and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year</u>	<u>ERS</u>	<u>TRS</u>
2023	\$ -	\$ 1,257,080
2024	308,174	638,433
2025	(138,161)	(284,411)
2026	509,704	4,386,964
2027	659,628	573,680
Thereafter	-	21,265
Total	\$ 1,339,345	\$ 6,593,011

Actuarial Assumptions

The total pension asset/(liability) as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension asset/(liability) to the measurement date. The actuarial valuation used the following actuarial assumptions:

	<u>ERS</u>	<u>TRS</u>
Measurement date	March 31, 2023	June 30, 2022
Actuarial valuation date	April 1, 2022	June 30, 2021
Interest rate	5.90%	6.95%
Salary scale	4.40%	5.18%-1.95%
Decrement tables	April 1, 2015- March 31, 2020 System's Experience	July 1, 2015- June 30, 2020 System's Experience
Inflation rate	2.90%	2.40%
COLA's	1.50%	1.30%

For ERS, annuitant mortality rates are based on April 1, 2015 - March 31, 2020 System's experience with adjustments for mortality improvements based on MP-2021. For TRS, annuitant mortality rates are based on System's experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2020.

For ERS, the actuarial assumptions used in the April 1, 2022 valuation are based on the results of an actuarial experience study for the period April 1, 2015 - March 31, 2020. For TRS, the actuarial assumptions used in the June 30, 2021 valuation are based on the results of an actuarial experience study for the period July 1, 2015 - June 30, 2020.

Actuarial Assumptions

The long term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, *Selection of Economic Assumptions for Measuring Pension Obligations*. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class as well as historical investment data and plan performance.

The long term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of the measurement date are summarized below:

Long Term Expected Rate of Return		
	<u>ERS</u>	<u>TRS</u>
Measurement date	March 31, 2023	June 30, 2022
<u>Asset Type -</u>		
Domestic equity	4.30%	6.50%

Discount Rate

The discount rate used to calculate the total pension asset/(liability) was 5.9% for ERS and 6.95% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based upon the assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension asset/(liability).

Sensitivity of the Proportionate Share of the Net Pension Asset/(Liability) to the Discount Rate Assumption

The following presents the District's proportionate share of the net pension (liability)/asset calculated using the discount rate of 5.9% for ERS and 6.95% for TRS, as well as what the District's proportionate share of the net pension asset/(liability) would be if it were calculated using a discount rate that is 1-percentage-point lower (4.9% for ERS and 5.95% for TRS) or 1-percentage-point higher (6.9% for ERS and 7.95% for TRS) than the current rate:

<u>ERS</u>	1% Decrease <u>(4.90%)</u>	Current Assumption <u>(5.90%)</u>	1% Increase <u>(6.90%)</u>
Employer's proportionate share of the net pension asset (liability)	\$ (5,886,951)	\$ (2,436,076)	\$ 447,531
<u>TRS</u>	1% Decrease <u>(5.95%)</u>	Current Assumption <u>(6.95%)</u>	1% Increase <u>(7.95%)</u>
Employer's proportionate share of the net pension asset (liability)	\$ (15,804,246)	\$ (1,714,039)	\$ 10,135,732

Changes of Assumptions

Changes of assumptions about future economic or demographic factors or other inputs are amortized over a closed period equal to the average of the expected service lives of all employees that are provided with pension benefits for the period during which the changes occurred. Differences between projected and actual earnings in pension plan investments are amortized over a closed five-year period.

I. Pension Plans

Collective Pension Expense

Collective pension expenses includes certain current period changes in the collective net pension asset/(liability), projected earnings on pension plan investments, and the amortization of deferred outflows of resources and deferred inflows of resources for the current period. The collective pension expense for the year ended June 30, 2023 is \$840,604 for ERS and \$2,151,003 for TRS.

Payables to the Pension Plan

For ERS, employer contributions are paid annually based on the System's fiscal year which ends on March 31st. Accrued retirement contributions as of June 30, 2023 represent the projected employer contribution for the period of April 1, 2023 through June 30, 2023 based on paid ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2023 amounted to \$114,697.

For TRS, employer and employee contributions for the fiscal year ended June 30, 2023 are paid to the System in September, October and November 2023 through a state aid intercept. Accrued retirement contributions as of June 30, 2023 represent employee and employer contributions for the fiscal year ended June 30, 2023 based on paid TRS wages multiplied by the employer's contribution rate, by tier and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2023 amounted to \$1,840,484.

Other Benefits

District employees may choose to participate in the District's elective deferred compensation plans established under Internal Revenue Code Sections 403(b) and 457.

II. Indebtedness

Short-Term Debt

Bond Anticipation Notes

Notes issued in anticipation of proceeds from the subsequent sale of bonds are recorded as a current liability of the fund that will actually receive the proceeds from the issuance of the bonds. State law requires that bond anticipation notes issued for capital purposes be converted to long-term financing within five years after the original issue date. The District had no outstanding Bond Anticipation Notes at June 30, 2023.

II. Indebtedness

Long-Term Debt

Serial Bonds

The District borrows money in order to acquire or construct buildings and improvements. This enables the cost of these capital assets to be borne by the present and future taxpayers receiving the benefit of the capital assets. These long-term liabilities are full faith and credit debt of the District. The provision to be made in future budgets for capital indebtedness represents the amount, exclusive of interest, authorized to be collected in future years from taxpayers and others for liquidation of the long-term liabilities.

Interest on long-term debt was comprised of:

Interest Paid		\$	172,703
Less: Interest Accrued in the Prior Year			(48,720)
Plus: Interest Accrued in the Current Year			31,798
Less: Amortization of premium and loss on refunding			(61,104)
Total Long-Term Interest Expense		\$	94,677

Long-Term Obligations

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing sources. Further, unmatured principal of general long-term debt does not require current appropriation and expenditure of governmental fund financial resources.

Changes

The changes in long-term liabilities and activity for the year ended June 30, 2023 are summarized as follows:

In addition to the debt listed above, the District had authorized but unissued bonds in an amount not to exceed \$17,985,700 for District renovations.

In prior years, the District defeased certain general obligations and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust accounts assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2023 \$1,590,000 of the outstanding bonds are considered defeased.

III. Constitutional Debt Limit

The constitution of the State of New York limits the amount of indebtedness which may be issued by the District. Basically, the District may issue indebtedness to the extent that the aggregate outstanding debt issues which are subject to such limit does not exceed 5% of the full valuation of taxable real estate within the District. At June 30, 2023, the District has exhausted 7.65% of its constitutional debt limit.

IV. Deferred Outflows and Inflows of Resources

The deferred outflows and inflows reported on the statement of net position consist of the following:

	<u>Deferred Outflows</u>	<u>Deferred Inflows</u>
Pension	\$ 10,855,567	\$ 1,113,832

Total	<u>\$ 32,620,711</u>	<u>\$ 39,816,262</u>

3. COMMITMENTS AND CONTINGENCIES

A. Risk Financing and Related Insurance

The Cohoes City School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, injuries to employees; errors and omissions; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past two years.

There are currently pending certiorari proceedings, the results of which could require the payment of future tax refunds by the District if existing assessment rolls are modified based on the outcome of the litigation proceedings. However, the amount of these possible refunds cannot be determined at the present time. Any payments resulting from adverse decisions will be funded in the year the payment is made.

Unemployment

The District does not purchase insurance for the risk of losses for unemployment claims. Instead, the District manages its risks for these losses internally and accounts for them in the District's general fund, including provisions for unexpected and unusual claims.

3. COMMITMENTS AND CONTINGENCIES

A. Risk Financing and Related Insurance

The activity for the unemployment insurance reserve for the year ended June 30, 2023 is as follows:

	Beginning Balance	Changes in Estimates/ Interest	Payments Made	Ending Balance
Unemployment Insurance Reserve	\$ 42,504	\$ 126	\$ -	\$ 42,630

Workers' Compensation

The District participates in a risk sharing pool. The New York State Public Schools Workers' Compensation Trust, to insure workers' compensation claims. This public entity risk pool was created under Article 5. Workers' Compensation Law, to finance liability and related workers' Compensation claims. Workers' Compensation benefits are provided by the plan and administration under contract with the plan's consultant.

Health Insurance

The District is a member of the Capital Area Schools Health Insurance Consortium (the "Consortium"), which is a trust formed under New York State Law on May 1, 1994. The Consortium is considered a public entity risk pool which is defined as a cooperative group of governmental entities joining together to finance an exposure, liability or risk, and is tax-exempt under Section 501(c)(9) of the Internal Revenue Code. The Consortium is governed by a trust agreement and a board of trustees who execute the provisions of the Trust, as set forth in the agreement. The Consortium has contracted with Amsure Associates for third party administration.

The Consortium was formed to allow its member school districts to obtain health insurance and prescription drug benefits at lower cost through a pooled purchasing arrangement. The Consortium procures group insurance contracts with insurance carriers for medical, prescription drug and dental benefits, in which the Consortium is not liable for any medical, prescription drug or dental claims. However, the Consortium also maintains a self-insured prescription drug plan for which the individual Consortium members are liable for any claims in excess of the balances maintained by the Consortium. As of June 30, 2023, the District's prescription drug plan account balance maintained by the Consortium is approximately \$3.550 million. The Consortium also maintains an account balance for the District of approximately \$1.351 million to fund supplemental premium payments that may be required under the retrospective funding arrangement in place for one of the insurance contracts.

The District has chosen to establish a self-funded prescription drug benefit program for all eligible employees. The pharmacy benefit manager, Blue Shield of Northeastern New York, is responsible for the approval, processing and payment of claims, after which they bill the District for reimbursement. The District is also responsible for a monthly administrative fee. The benefit program reports on a fiscal year ending June 30. The program is accounted for in the General Fund of the District. At year-end, the District has a liability of \$-0-. With electronic claims submissions, all incurred claims are reported within two weeks, and have been included within

B. Other Items

The District has received grants, which are subject to audit by agencies of the State and Federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the District’s administration believes disallowances, if any, will be immaterial.

4. POST EMPLOYMENT BENEFITS OBLIGATION PAYABLE

Plan Description

The District administers a defined benefit OPEB plan that provides OPEB benefits to employees of the District governed by contractual agreements. The plan is a single-employer defined benefit plan (the Plan). Article 11 of the State Compiled Statues grants the authority to establish and amend the benefit terms and financing requirements to the District’s Board, subject to applicable collective bargaining and employment agreements, and Board of Education policy. The Plan does not issue a separate financial report since there are no assets legally segregated for the sole purpose of paying benefits under the Plan. No assets are accumulated in trust that meet the criteria in paragraph 4 of Statement No. 75.

Funding Policy

The obligations of the Plan members and employers are established by action of the District pursuant to applicable collective bargaining and other employment agreements. Employees contribute varying percentages of the premiums, depending on when retired and their applicable agreement. Employees classified as teachers and principals are required to reach age 55 and have 10 years of service or in some cases meet ERS/TRS service requirements to qualify for other post employment benefits. Eligibility requirements for support staff having a hire date on or after July 1, 2017 and non-bargaining staff are a 10-year district service requirement and they must meet the service requirements for ERS/TRS. For support staff hired before July 1, 2017 they must meet the ERS/TRS service requirements. The District currently funds the Plan to satisfy current obligations on a pay-as-you-go basis. During the year ended June 30, 2023 approximately \$2,730,000 was paid on behalf of 272 retirees.

4. POST EMPLOYMENT BENEFITS OBLIGATION PAYABLE

Benefits Provided

The District provides for continuation of medical benefits for certain retirees and their spouses. The benefit terms are dependent on which contract each employee falls under, retirees and their spouses receive benefits for the lifetime of the retired employee. The specifics of each contract are on file at the District offices and are available upon request.

Employees Covered by Benefit Terms - At the valuation date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	272
Inactive employees entitled to but not yet receiving benefit payments	-
Active Employees	357
Total	629

Net OPEB Liability

The District's total OPEB liability was measured as of June 30, 2023; the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2022.

Actuarial Assumptions and Other Inputs

The total OPEB liability at June 30, 2023 was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.70 percent
Salary Increases	Vary by pension retirement system membership, 2.2% to 12.3%
Discount Rate	4.13 percent
Healthcare Cost Trend Rates	Initial rate of 6.75% decreasing to an ultimate rate of 4.14% by 2076
Retirees' Share of Benefit-Related Costs	Varies depending on contract

Mortality rates were based on Pub-2010 Headcount-Weighted table (Teachers for TRS Group and General Employees for the ERS Group) projected fully generationally using Society of Actuaries' Scale MP-2021.

Retirement participation rate assumed that 100% of future retirees eligible for coverage will elect the benefit. Marriage assumption, it was assumed that participants will keep their marital status upon retirement. For 55% of male and 30% of female employees are assumed to elect spousal coverage at retirement. Actual census information was used. Additionally, a tiered approach based on age and years of service was used to determine retirement rate assumption.

4. POST EMPLOYMENT BENEFITS OBLIGATION PAYABLE

Actuarial Assumptions and Other Inputs

Termination rates are based on tables used by the New York State Teachers' Retirement System and the New York State and Local Retirement System. Rates are tiered based on the percentage of employees who will terminate employment at any given age each year, for reasons other than death or retirement.

Changes in the Net OPEB Liability

Changes in the District's net OPEB liability were as follows:

Balance at June 30, 2022	\$ 112,503,767
<u>Changes for the Year -</u>	
Service cost	\$ 3,855,970
Interest	4,071,134
Changes of benefit terms	(41,586)
Differences between expected and actual experience	(6,898,064)
Changes in assumptions or other inputs	(8,441,283)
Benefit payments	(2,735,689)
Net Changes	\$ (10,189,518)
Balance at June 30, 2023	\$ 102,314,249

Changes of benefit terms and assumptions reflect changes in assumptions and other inputs including a change in the discount rate from 3.54% in 2022 to 4.13% in 2023. Changes to the mortality table used, updated medical and prescription drug trend rates and updates to the retirement plan elections drove the differences between expected and actual experience as well as assumption changes.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the District's total OPEB liability, as well as what the District's total OPEB liability would be if it were calculated using discount rate that is 1 percentage point lower (3.13%) or 1 percentage point higher (5.13%) than the current discount rate:

	1% Decrease	Discount Rate	1% Increase
	<u>(3.13%)</u>	<u>(4.13%)</u>	<u>(5.13%)</u>

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL
CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the President and Members
of the Board of Education of
Cohoes City School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities and each major fund of the Cohoes City School District (the District) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 30, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for determining audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2023-003 and 2023-004, that we consider to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2023-001 and 2023-002.

District's Response to the Findings

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON
COMPLIANCE FOR EACH MAJOR PROGRAM AND
ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE**

To the President and Members of the Board of Education of the
Cohoes City School District

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Cohoes City School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2023. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Cohoes City School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination for the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but it is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purposes of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

COHOES CITY SCHOOL DISTRICT
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
JUNE 30, 2023

1. BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) presents the activity of federal award programs administered by the Cohoes City School District (District), which is described in Note 1 to the District's accompanying financial statements, using the modified accrual basis of accounting. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the District's financial statements. Federal awards that are included in the Schedule may be received directly from federal agencies, as well as federal awards that are passed through from other government agencies.

The information presented in the Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). This Schedule only presents a selected portion of the operations of the District.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. The amounts reported as federal expenditures were obtained from the federal financial reports for the applicable program and periods. The amounts reported in these reports are prepared from records maintained for each program, which are reconciled with the District's financial reporting system.

The federal expenditures are recognized under the Uniform Guidance.

3. SCOPE OF AUDIT

The Cohoes City School District is an independent municipal corporation. All federal grant operations of the District are included in the scope of the single audit.

4. NON-CASH ASSISTANCE

Nonmonetary assistance is reported in the Schedule at the fair market value of the commodities received and disbursed. For the year ended June 30, 2023, the District received food commodities totaling \$54,789.

5. INDIRECT COST RATE

The Cohoes City School District did not elect to use the 10% de minimus cost rate.

Indirect costs may be included in the reported expenditures, to the extent that they are included in the federal financial reports used as the source for the data presented. The District's policy is to charge federal award programs with indirect costs based on a rate established by New York State.

SECTION II: FINANCIAL STATEMENT FINDINGS

Findings related to the financial statements which are required to be reported in accordance with Government Auditing Standards:

Noncompliance Material to the Financial Statements

2023-001 Compliance with Net Cash Resources and Excess Fund Balance for Child Nutrition

Statement of Condition: The fund balance in the school lunch fund exceeds the allowable limit by approximately \$45,000.

Criteria: According to the code of federal regulations section CFR §210.14 (b) the school food authority shall limit its net cash resources to no more than 3 months worth of average expenditures.

Cause: The cumulative effect of expenditures being less than revenue for a number of years.

Effect of Condition: The District was not in compliance with federal guidelines.

Context: As part of audit procedures, compliance with this federal guideline is reviewed. Compliance with Net Cash Resources and Excess Fund Balance for Child Nutrition.

Recommendation: The District should follow federal guidelines to resolve excess fund balance. The District is required to submit a plan to the Child Nutrition Program Administration detailing how the District will reduce the fund balance to an acceptable level within one year and also what the District will do to ensure that an excess fund balance does not occur in the future.

Views of responsible officials and planned corrective actions: The District has submitted a plan to the Child Nutrition Program. The district plans to spend approximately \$160,000 on new cafeteria tables. S. Mackey is responsible with an anticipated completion date of the summer of 2024.

2023-002 Compliance with New York State Real Property Tax Law

Statement of Condition: The unassigned fund equity of the General Fund exceeds 4% of the 2023-2024 General Fund Budget by approximately \$4,254,000.

Criteria: NYS Real Property Tax Law Section 1318 limits the amount of unassigned fund equity a District can have to no more than 4% of the General Fund budget for the ensuing fiscal year.

Cause: The cumulative effect of expenditures being under budget.

**COHOES CITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS

SECTION II: FINANCIAL STATEMENT FINDINGS

Findings related to the financial statements which are required to be reported in accordance with Government Auditing Standards:

Noncompliance Material to the Financial Statements

2023-002 Compliance with New York State Real Property Tax Law

Effect of Condition: The District was not in compliance with NYS Real Property Tax Law.

Context: As part of audit procedures compliance with the NYS Real Property Tax Law Section 1318 limit is reviewed.

Recommendation: The District should monitor fund equity and use the excess fund equity in future years.

Views of responsible officials and planned corrective actions: The District will prioritize the Capital & Debt Service reserves as bidding for the May 2022 Capital project is scheduled for this winter. The district will make the appropriate adjustments following the review and approval of the long range financial plan & project bid results. S. Mackey is responsible with an anticipated completion date of 6/30/2024.

Significant Deficiencies

2023-003 AUDIT ADJUSTMENTS

Criteria: To accurately present the financial position of the District, general ledger accounts should be reconciled and monitored throughout the year and at year-end by management. The accuracy of financial data is crucial to the budget process and monthly report monitoring.

Statement of Condition: Adjusting journal entries were proposed as a result of audit procedures to properly reflect year-end balances.

Context: There were transactions that was not properly recorded during the year, these adjustments related to (1) recording revenue received against fund balance (2) not recording all commodities received (3) not accruing revenue and receivable for funds earned, and (4) incorrect recording of accounts payable and expenditures.

Effect of Condition: In the general fund, the capital reserve was overstated by \$143,832. In the capital fund, accounts receivable and revenue were both understated by \$145,000. In the capital fund accounts payable and expenditures were overstated by \$206,771 and due to was overstated by \$43,502. In the school lunch fund, revenue was understated by \$19,577.

Cause: The adjusting journal entries identified during the audit appear to be caused by transactions not being recorded at year-end.

**COHOES CITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
JUNE 30, 2023**

SECTION II: FINANCIAL STATEMENT FINDINGS

Findings related to the financial statements which are required to be reported in accordance with Government Auditing Standards:

Significant Deficiencies

2023-003 AUDIT ADJUSTMENTS

Recommendation: We recommend that management review and monitor account balances at year end more closely and implement a formal closing process for end of year reconciliations and cut-off.

View of Responsible Officials and Planned Corrective Actions: The District has formal closing procedures and will continue to monitor account balances at year end. The required adjustments pertain mainly to Capital activities, specifically the timing of the playground equipment deliveries and a miscalculation for the commodities closing entry. S. Mackey is responsible with an anticipated completion date of 6/30/2024.

2023-004 Timelines related to STACing

Criteria: To be reimbursed by the state timely for special education costs incurred by the District for the Summer Handicapped program, STACing of students should be done timely.

Statement of Condition: State reports do not agree with District records pertaining to amounts owed to the District by the state.

Context: The District has been behind on STACing students since 2021 and therefore the state reports are not agreement with the District records pertaining to the amount owed to the District for special education services provided. The amounts owed to the District from the state are based on the District reporting (via STACing) the students served and the specific services provided. Based on this data and the District specific rates the state determine what is owed to the District. Additionally, there are deadlines for submission. If submissions are not timely, aid could be lost.

Effect of Condition: The District may be unable to get reimbursed by the state for expenses incurred. This could lead to fiscal distress if not remedied.

Cause: The District has been behind on STACing students since 2021.

Recommendation: We recommend that management designate employees to focus on catching up with the STACing of students.

View of Responsible Officials and Planned Corrective Actions: The District has reviewed the STACing process & procedures to ensure completion of STACing is more timely going forward. E. Hill is responsible with an anticipated completion date of 6/30/2024.
